

IRWAN DHARMAWAN

Senior UI/UX Designer | UI Engineering & Rapid Prototyping

Jakarta, Indonesia · Open to Remote & Hybrid Opportunities

irwan1010@gmail.com | +62 878 7311 6901 | [therapidui.netlify.app](#) | [linkedin.com/in/irwandharmawan](#) | [github.com/inesia](#)

PROFESSIONAL SUMMARY

Senior UI/UX professional with 15+ years of hands-on experience translating business requirements, complex workflows, and product ideas into clear digital interfaces and functional prototypes.

Strong expertise in UI/UX, HTML/CSS, responsive interface implementation, and design-to-development workflows across enterprise platforms, CRM systems, dashboards, media, banking, web applications, mobile apps, and Progressive Web Apps.

Currently using AI-assisted development workflows and coding agents to accelerate prototyping while maintaining a strong focus on usability, interface quality, responsive behavior, and practical implementation.

CORE EXPERTISE

UI/UX & Product Design: UI/UX Design · Interface Design · Interaction Design · User Flows · Wireframing · Responsive UI · Dashboard Design · Enterprise UI · Mobile App UI · PWA Interface Design · Design Systems · Rapid Prototyping

UI Engineering: HTML5 · CSS3 · Responsive Web Design · Cross-Browser UI · Design-to-Code · UI Component Structuring · Front-End Prototyping · Design-to-Development Handoff

Rapid & AI-Assisted Prototyping: Web App Prototyping · Mobile App Prototyping · PWA Prototyping · Interactive Prototypes · AI Coding Agents · Agent-Directed Development

TOOLS & WORKING TECHNOLOGIES

Design Tools: Figma · Adobe Photoshop · Adobe Illustrator

Development Workflow: Git · Cursor · AI Coding Agents

Working Familiarity: *React · Next.js · Tailwind CSS · JavaScript · Capacitor*

PROFESSIONAL EXPERIENCE

UI/UX Engineer | Ivsights · Freelance

Aug 2025 – Aug 2026

Remote | Jakarta, Indonesia

- Translated complex enterprise requirements into responsive, functional interface prototypes using rapid code-based prototyping.
- Designed data-intensive CRM interfaces covering sales pipelines, conversion analytics, revenue tracking, and operational dashboards.
- Designed executive command-center interfaces incorporating multi-channel monitoring, sentiment analysis, data visualization, and centralized information views.
- Applied strong HTML/CSS expertise together with AI-assisted development workflows to rapidly build and iterate browser-based prototypes.
- Bridged UI/UX and practical implementation, improving communication between stakeholders, product teams, and developers in a remote working environment.

Independent UI/UX Designer & Rapid Prototyping

2021 – Present

Freelance / Concurrent Projects | Remote

Wellnooz — UAE-Based Wellness Application

- Designed the initial UI and functional prototype for a UAE-based wellness application currently in development.
- Leveraged HTML/CSS as a core strength to build responsive interfaces.
- Utilized React, Tailwind CSS, and Capacitor through AI-assisted prototyping workflows to accelerate delivery.

Promedia — Digital Media Ecosystem

- Designed UI/UX solutions for a large-scale digital media ecosystem supporting 1,000+ independent publishers.
- Developed scalable UI patterns and reusable interface structures to ensure consistency across publishing properties.
- Ensured practical design-to-development implementation for smooth engineering handoffs.

Lead UI/UX Engineer | PT Aplikasi Media Nusantara

2014 – Present

PT Aplikasi Media Nusantara | Jakarta, Indonesia

Also involved in company operations and business management while remaining hands-on in digital product and interface work.

Bank BSI / Bank Syariah Mandiri — B2B Digital Platforms

- Designed interfaces for specialized B2B initiatives including Business Value Chain and Go-UMKM platforms.
- Translated complex business processes into structured digital interfaces to simplify interactions for enterprise and SME users.

Otojournalisme.com — Automotive Media Platform

- Led UI/UX architecture and interface development, translating product concepts into practical digital experiences.
- Developed reusable interface patterns and functional prototypes to clarify requirements before full development.

Corporate Digital Experiences (Federal Oil & Honda Community)

- Designed digital interfaces and campaign-related experiences while maintaining strict corporate brand standards and visual consistency.
- Worked directly with stakeholders and developers to clarify requirements and reduce ambiguity during handoff.

UI/UX & Front-End Designer | PT Digital Otomotifindo — Kompas Gramedia Group

2011 – 2014

PT Digital Otomotifindo — Kompas Gramedia Group | Jakarta, Indonesia

- Spearheaded UI/UX design and practical HTML/CSS implementation for otomotifnet.com and various automotive digital initiatives.
- Designed and implemented campaign microsites and digital activation experiences.
- Collaborated closely with editorial, marketing, and development teams to produce functional front-end mockups for internal and client-facing projects.

UI/UX Designer & Front-End Prototyper | PT Agranet Multicitra Siberkom — detik.com

2007 – 2011

PT Agranet Multicitra Siberkom — detik.com | Jakarta, Indonesia

- Designed user interfaces and functional HTML/CSS prototypes for internal digital products and high-traffic microsites.
- Contributed to transitioning the design workflow from static visual mockups toward practical browser-based prototypes.

SELECTED CURRENT PROJECTS

LSP IAI — Professional Certification Platform

Web Application · Workflow UI · Dashboard · Rapid Prototyping | In Progress

Prototype: staging-app.lsp-iai.id

- Translating complex operational requirements and multi-step user journeys into functional browser-based prototypes.
- Refining responsive web application UI and interface flows through iterative development to support validation and handoff.

InvestiHub — Dashboard Prototype

Web Application · Dashboard UI · Rapid Prototyping | In Progress

Prototype: investihub.netlify.app/dashboard

- Translating data-oriented workflows into structured dashboard UI concepts.
- Developing responsive interfaces and interactive functional prototypes for ongoing product evaluation.

Y-Warrior — PWA Prototype

Progressive Web App · Mobile-First UI · Functional Prototyping

Prototype: y-warior.netlify.app

- Designed and developed a functional PWA prototype focusing on mobile-first user experience.
- Used AI-assisted rapid prototyping workflows to efficiently translate product concepts into responsive interface structures.

MoFish Auctions — PWA Prototype

Progressive Web App · Mobile UI · Functional Prototyping

Prototype: mofish-auctions.netlify.app

- Created an interactive PWA prototype translating product requirements into a mobile-oriented interface.
- Developed functional interface flows to demonstrate product behavior beyond static UI screens.

PRODUCT & PROTOTYPING CAPABILITIES

- Translate business requirements and early product ideas into practical UI/UX solutions.
- Develop user flows, wireframes, responsive interfaces, and interactive prototypes.
- Prototype web applications, dashboards, mobile apps, and PWAs.
- Support early-stage product exploration with UI concepts and presentation materials when required.
- Work from initial requirements through functional prototype delivery and development handoff.

EDUCATION

Bachelor's Degree in Economics — Management

STIE Kesatuan Bogor · Indonesia
